This letter is to inform you that the 2003 Fisheries Resource Monitoring Plan has been finalized and approved Federal Subsistence Board. A total of 31 projects will be funded at a cost of \$1,770 thousand. Summary tables by region and data type for the 2003 Fisheries Resource Monitoring Plan are available at:

Investigators are reminded that no expenses for these projects are authorized until funding agreements are in place. I anticipate that all funding agreements will be finalized by March 1, 2003.

On behalf of the Office of Subsistence Management, Fishery Information Services, I would like to thank all who participated in development of the 2003 Plan. If you have any questions, please feel free to contact Fisheries Information Services staff.
